Agile Methodology

PROJECTS

Covid and Pneumonia Prediction Using Chest X-rays - University FYP (09/2021 - 09/2022)
- This Research was focused on finding the best algorithm for the detection of COVID & Pneumonia disease using chest x-rays. I have utilized 4 Algorithms CNN, Inception-v3 , DenseNet121 and VGG-16. Their performance was measure on the basis of Precision, Recall, f1-score Accuracy and AUC-ROC.

E-retail Point Website (SMSAMI) (02/2023 - Present)
- In this project i have created a website (https://eretailpoint.com/) for the company which representing their one of the product. Through this site they advertised their product and got their clients.

Ready To Munch (SMSAMI) (02/2023 - Present)
- In this project i work in the front-end team to solve the bugs related to front end. We help to develop any new change in the website or to improve any feature according to the prototype and requirements (https://readytomunch.com/)

Point of Sale Pharmacy (SMSAMI) (06/2023)
- In this project i am working in as a front-end developer to resolve the bugs and also to add some features required for the pharmacies to expand their product market. The AIM is to expand their POS from restaurants to Pharmacies (https://app.prod.eretailpoint.com/auth/login)

Abbas Law Firm (SMSAMI) (05/2023 - Present)
- In this project i am working as a front-end developer to resolve the issues and add some features as well as do changes in the UI. This project is about handling several legal cases regarding to Canada. (https://abbaslaw.ca/index-2.html)
